## DG Kenny's Message

Greetings Fellow Lions,

The Banner Transfer was held on July 30<sup>th</sup> and was a great success. Thanks to all who attended. This year's pin was distributed to the clubs. If your club needs more pins or if you want a pin please let me know. I heard many compliments on the design and decided to share how I envisioned the pin and what it represents. I began with the background being the buff diamond. Delaware is sometimes referred to as the diamond state and the diamond is displayed on the Delaware state flag. The shape of Delaware is located in the middle of the diamond and colored colonial blue. These two colors are the state colors. Next, you will see three icons: Blue Hen, Holly Tree, and the Horseshoe Crab. In my mind these three state symbols represent the three regions or counties of Delaware. The word Delaware is vertical going through all three counties bridging us together. The years 2019-2020 represents the current Lion year. The Lions logo is included representing who we are. The Blue Hen is facing Delaware, watching over us. The Blue Hen is a bird with determination. It reminds me of Lions determination to succeed – to follow a plan and not give up. The holly tree represents life. It has roots deep in Delaware history. It reminds me of a family tree with branches. Lions, we are a family. Horseshoe Crabs have been around since prehistoric times. I hope Lions will have the same longevity as the horseshoe crab. Finally, these Delaware symbols are interchangeable. They can be found in more than one county or region in Delaware. So you can pick the symbol that you like to represent your county or region. So please wear our pin proudly and share the story with other Lions, family, and friends.

**Lions in the spotlight!** Do you have someone in mind, who should be in this section? There are many Lions, who go unnoticed and I would like to showcase them in this area. Email me a short description of your Lion(s) and I will try to include them in a future letter.

**Trivia question for this month!** Who is the current Past International Director from 22-D? The 5th person to email me will be the winner. Good luck to all! Last month's winner was Geraldine Cochran from the Wilmington Gateway Lions Club. The answer was VDG Tony Lee.

## Vice District Governor

Greetings Lions,

This year I'm going to focus on LCI Causes in my column. I feel it's important to be aware of our international and district objectives and to link within our service activities and projects, to do our part to make a difference. The first topic I present is a cause near and dear to my body – Diabetes.

According to the World Health Organization (WHO) <https://www.who.int/>, over **422 million** people are living with diabetes around the world; **1 in 3** low income regions say they have the technology to diagnose and manage diabetes. Diabetes contributes to over 5 million deaths each year and is the 8<sup>th</sup> leading cause of death in the world. The sad news is the numbers are raising.

According to the LCI Website, LCI and clubs around the world have taken on the challenge to educate communities and establish initiatives and programs to improve the lives of those living with diabetes and help prevent others from developing type two diabetes. Last year, as your District Diabetes Chair, I had the opportunity to visit clubs with my story of diabetes and a call for service to be active in your communities by incorporating diabetes awareness and education within service projects and activities. I heard great stories and commitment from clubs of service.

Let's start with the basics by answering the question - what is diabetes? Diabetes is a chronic condition that occurs when the body can't produce enough insulin or can't properly use the insulin that's available. This condition is personal to an individual as each person's chemical makeup is different. To counter this condition, we need to educate ourselves and our communities on the effects of diabetes. We need to take on challenge of a healthy lifestyle into the future and lead by example.

The staggering fact that 50 percent of individuals with diabetes don't even know they have it is a great point emphasis. This is our target opportunity to deliver the diabetes message to the community for health checkups and/or screening and healthy lifestyles of exercise and eating healthy. We need to energize our younger generation, as diabetes is growing in youths, due to lack of exercise and poor eating habits.

Last year I initiated discussion with representatives from the Delaware Diabetes and Heart Disease Program <https://www.dhss.delaware.gov/dhss/dph/dpc/diabetes.html> and the Medical Reserve Corp <https://sites.udel.edu/delawaremrc/> on establishing a partnership of collaboration. This was evident for those that attended the MD22 Convention this year to witness my service project of an information table focused on diabetes. This year we are going to work to improve our partnership within this group, as they offer education and programs to add to our projects. The Delaware Diabetes Coalition is hosting their annual Diabetes Wellness Expo on November 19<sup>th</sup> at the Dover Downs <https://www.dediabetescoalition.org/wellness-expo/>.

Let's do our part, start with you and family and let it spread throughout your community!

VDG Tony Lee

GLOBAL ACTION TEAM  
DG KENNY VINCENT  
2019 - 2020**

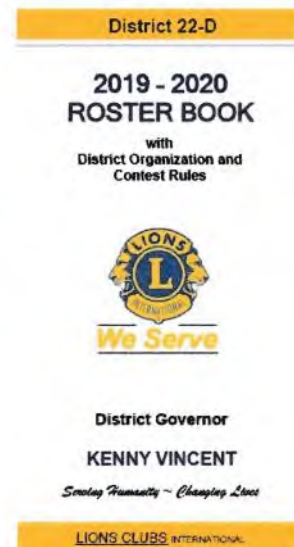

**Mark this date on your calendars!!!  
September 28, 2019.**

The 22D GAT will be holding a Roundtable Discussion tentatively titled District Roster Book 101. Discussion will be divided into 3 parts. The Roster Book, District Contests and Awards, and all about Visitations.

Most of us receive a District Roster Book, usually in the beginning of the year, but what do we do with it?

- Do we ever look at it?
- Who are our District Officers?
- Who is our International President?
- Who is my zone chair?
- Who do I contact about Leader Dog?
- Who should I contact to have a speaker from Special Olympics come to my club?
- Do we know how to find what is happening when?
- What contests for the clubs are run in the district?
- How are the winners determined?
- What clubs have hospital equipment?
- Who are the district governors in the other districts?
- What are the other districts?

The answers to all these questions and so many more are found in your District Roster Book!

Come join us on September 28<sup>th</sup> at St. Andrews Lutheran Church in Dover from 9:30AM to 11:30AM and find out where the answers to these questions are hidden.

This roundtable is open to all Lions and new Lions are especially encouraged to attend. Please contact PCC Ralph and let him know how many from your club will be attending or if you have any questions.

# Campaign 100

A Campaign to Empower the Service of Lions

**\$300 Million / \$97,669**

**Congratulations – Disrict D has doubled what was donated all of last year!**

The bar has been set high by LCIF for District MD 22 – D and as of June 30, 2019, the district has donated \$71,766.34 toward this year's LCIF goal. This new donation figure is more than twice what was donated all of the last year. The best way that Lions can help the victims of the floods in the Midwest is to donate to LCIF and this year make a personal pledge to "Campaign 100". Where there is a need there is a Lion ready to help!

The Honorary Committee Challenge headed by PDG Jim Minnich and PDG David E. Jones have asked all 35 PDG's to pledge \$1,000 toward "Campaign 100" and 12 PDG's have pledged already. Also, twenty-two other Lions have made their pledges. See the Lion Wall of Honor below. Please, make sure that you let me when you have made a "Campaign 100" pledge.

Thank you all for what you have already done to support LCIF, your foundation, and what you can do to support Campaign 100.

Yours in Lionism,

PDG A. Kendall "Ken" Chew, III, LCIF Co-Coordinator

PDG Karl Gude, LCIF Co-Coordinator

## NEWS YOU CAN USE

## Retina risk app tool empowers diabetic patients worldwide

(FIGURE 1) A new free mobile app, Retina Risk, released recently by Risk Medical Solutions, helps patients with diabetes assess their risk for the development of diabetic eye disease. (Image courtesy of Risk Medical Solutions)

**A novel and free app has been developed to help diabetic patients assess their risk for the development of diabetic eye disease and set goals accordingly.**

A new tool ([Retina Risk App](#), [Risk Medical Solutions \[RMS\]](#)) helps patients with diabetes assess their risk for the development of diabetic eye disease. What sweetens this news even more is that the app is free and usable with both Android and iOS platforms.

“This mobile app should empower patients to better understand their own risk profiles for eye disease and motivate them to modify their personal risk factors,” said [Einar Stefánsson, MD, PhD](#), professor of ophthalmology and physiology, [University of Iceland](#), National University Hospital, Reykjavík, and one of the co-founders of RMS.

The availability and importance of a tool such as this is underscored by how pervasive diabetes has become.

“The global diabetes epidemic has tripled since 2000, to some 430 million persons worldwide, and is expected to exceed 600 million by 2045,” Dr. Stefánsson noted. “Two-thirds of persons with diabetes develop [diabetic retinopathy](#) and one-third develop sight-threatening diabetic retinopathy over 20 years. These patients are at high risk of visual impairment or even blindness if not diagnosed and treated in a timely manner.”

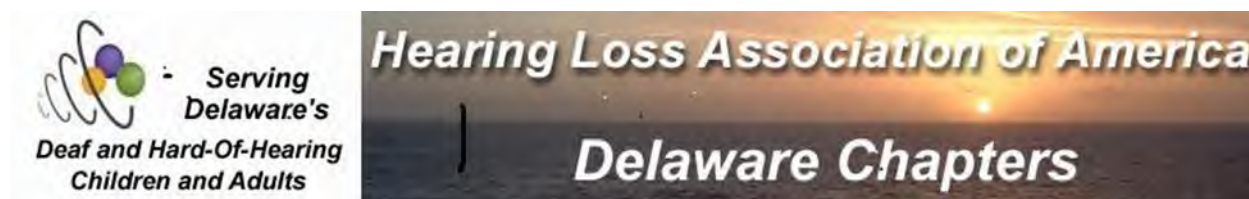

The upside to this scenario is that routine eye screening and preventive treatment dramatically reduce blindness that develops as the result of diabetes, which is where the app comes into play.

“The Retina Risk App is a clinically validated risk calculator that allows people with diabetes to assess in real-time their individualized risk for development of sight-threatening diabetic retinopathy, based on their risk profile,” said Arna Gudmundsdottir, MD, diabetologist at [Landspítali University Hospital](#), Department of Endocrinology, the National University Hospital, Reykjavik, Iceland, and also co-founder of RMS.
